Three-week intensive business and leadership program with a capstone project consisting of a valuation of the aerospace company Boeing

TECHNICAL SKILLS

Python, Flask, React.js, JavaScript, SQL, SQLAlchemy, Git, HTML, CSS, Visual Studio Code, Excel, PowerPoint

PROJECTS

SoundScape GitHub | **Demo**
- Application for reviewing albums. Users can review/view albums and other users' reviews
- Leveraged Flask and SQLAlchemy to create a relational database and RESTful API backend
- Employed React.js and Vanilla CSS to style the frontend
- Authenticated users and added password hashing using the Bcrypt library

Flats After Flatiron GitHub | **Demo**
- Command line interface program that allows users to browse, schedule, and edit vacations at various properties
- Included two many-to-many relationships as well as one reciprocal relationship with three different models(Traveler, Domicile, Vacation(join))
- Validated user input for login and new data entry

Interactive Dartmouth Map GitHub | **Demo**
- Interactive map of Dartmouth's campus that includes vertices at each main walking point on campus
- Implemented a breadth-first search algorithm to determine the shortest walking distance between any two major walking points selected by the user

WORK EXPERIENCE

Iconiq Capital, San Francisco, CA   **Jan. 2020-Mar. 2020**
Growth Equity Intern
- Constructed an analyst presentation on Chaos Engineering to provide insight into the space for the Growth Equity Team
- Facilitated the organization of valuable company data into a database and streamlined operations for a founding partner

Delta Investment Management, San Francisco, CA   **June 2019-July 2019**
Intern
- Learned finance from the buyer side in the stock market and helped in coding financial models in Excel
- Gained entrepreneurial experience through participating in sourcing calls and meetings

LEADERSHIP & SERVICE

Dartmouth Football, Hanover, NH   **Aug. 2018-Nov. 2021**
Offensive Lineman
- 2021 FCS ADA Academic All-Star Team Member
